Background: In the spirit of our college themes, the Service Learning Program at College Nine and College Ten used to sponsor Alternative Spring Breaks. For the first few years, students traveled to Baja to help build a home for a deserving family. Then, after Hurricane Katrina, students refocused their attention on New Orleans and the rebuilding efforts in the Lower Ninth Ward. Beginning in 2011, The ASB Program was temporarily discontinued when the costs of running the program became prohibitive. Then in 2014 the service learning program created a newly conceived ASB which took place right here in the Live Oak Community. The ASB student leader played a hand in conceptualizing and implementing the reimagined ASB for our students. In 2016 ASB students explored Watsonville. Future ASB student leaders will build upon the successes of the previous Live Oak and Watsonville programs.

In order to lead the ASB trip, the student must be able to commit to being involved during the fall, winter, and spring quarters. The job will be shared with another student. Both student leaders will receive stipends for their work. On average the workload will be roughly 2-5 hours/week with the exception of spring break when the work will be full-time.

Do you have any comments about the time commitments or any general thoughts? _____
